About our Agency

The Washington State Patrol (WSP) is a professional public safety agency made up of dedicated professionals who work hard to improve the quality of life as well as prevent the unnecessary loss of life on a daily basis. The WSP has approximately 2200 employees and is organized into six bureaus: Field Operations, Technical Services, Forensic Laboratory Services, Fire Protection, Investigative Services, and Management Services. More than half of all WSP employees work in a variety of non-commissioned jobs to support the Patrol's mission.

Mission Statement

The WSP makes a difference every day, enhancing the safety and security of our state by providing the best public safety services.

Information Technology Specialist 5
(JAVA Application Developer and Support Supervisor)
Information Technology Division
Technical Services Bureau

Recruitment Number: NB00007538*
Location: Tumwater, Washington
Posting Date: 10/19/2007
Closing Date: Open until filled

Primary Duties:

Serves as a professional specialist in information technology as the Supervisor of the Intelligent Development of Enterprise Application Solutions (IDEAS) team.

Responsible for independently performing senior level professional design, support, development, programming, and maintenance of moderate to large applications, projects, or systems, using tools such as Rational Application Developer, WebSphere Application Server, Java, JSP, JSF, JavaScript, SQL, and Microsoft SQL Server 2005. Supervises and work directly with a team to design server-independent systems to meet agency business needs. Designs specialized interfaces, file transfers, and data collection and presentation applications as part of the Rapid Application Development team.

Utilizes broad technical and specialized understanding of information technology environments and possess organizational knowledge of customer business needs such that they understand how the business components impact each other. This position may require statewide travel and work may be in excess of 40 hours a week.

Required Qualifications:

* Five years of information technology experience such as consultation, analyzing, designing, programming, and maintaining computer software applications, directing projects, providing customers or technical support in information technology.

* Two years of experience as a direct line supervisor.

* Demonstrate skills in the use of the following technologies/software with at least two years of experience:

- * Java 2 Platform, Enterprise Edition (J2EE)
- * Java 2 Platform, Standard Edition (J2SE)
- * Java Naming & Directory Interface (JNDI)
- * Java Server Pages & Servlets
- * Java Server Faces & Pagecode
- * Extensible Markup Language (XML)
- * HyperText Markup Language (HTML)
- * JavaScript
- * SQL/Transact-SQL

* Knowledge of Activity Directory (AD)

* Lightweight Directory Access Protocol (LDAP)

- * WebSphere Application Server
- * Rational Developer 6.x
- * Information Systems Development & Administration
- * Independently Managing Workloads
